Driving Cost Efficiency Across Technology Spend

Private Sector Bank | Contract Rationalization | Commercial Optimization | Risk Protection

$19.8M in savings was achieved across 60 technology and telecom contracts

Customer Challenge

- The client needed to optimize more than 60 technology and telecom contracts, representing a combined spend of $148M, while improving cost efficiency and managing risk exposure.

Our Solution

- We conducted a 16-week contract review and optimization program across the portfolio.
