Non-Compliance Audit and Penalty Notice

Chemical Industry | License Remediation | Compliance Stabilization | Risk Mitigation

A $48K licensing penalty was managed down to just $2K across a 600-machine environment

Customer Challenge

- The organization received a $48,193 penalty demand letter for licensing discrepancies involving 10 machines within a 600-machine environment.

Our Solution

- We conducted a 4-week remediation engagement, validating software deployment and aligning it with the appropriate entitlements.
